ABOUT ME

I am a punctual and motivated learner who enjoys exploring new technologies and improving my skills. I believe in doing work with consistency and dedication. Whether it's learning something new or completing a task, I always try to give my best and stay focused. I enjoy building useful things and take every opportunity to grow as a developer.

EDUCATION

- **Junior College (Yogeshwari College, Ambajogai):** Completed science stream with a core focus on mathematics and physics.
- Developed curiosity in technology, which encouraged me to explore computer science further.
- **B.Tech in Computer Science – SGGGS College, Nanded:** Currently pursuing 3rd year.
- Deeply interested in Artificial Intelligence, Machine Learning, and Data Structures Algorithms, with a passion for continuous learning and building impactful projects.
- **Specialization:** Minor Degree in AI/ML under NEP 2020; actively learning Machine Learning and Advanced Python Programming.

SKILLS

Web Development: HTML, CSS, JavaScript, React — currently learning the MERN Stack (MongoDB, Express.js, React.js, Node.js)

Programming Languages: C, Python (Advanced concepts), Java (OOPs DSA), SQL (MySQL)

Tools Collaboration: Git, GitHub (Version control team collaboration)

Foundations: Data Structures Algorithms (LeetCode), Operating Systems ,advance algorithm
