SUMMARY

Computer Science student with strong foundations in Data Structures and Algorithms, problem-solving, and core CS subjects including DBMS, Operating Systems, and Computer Networks. Experienced in MERN stack development with hands-on experience building full-stack applications and system simulators. Passionate about learning new technologies and building scalable software solutions.

EDUCATION

SGGSIE&T

B.Tech in Computer Science and Engineering, CGPA: 8.7/10

2023 – Present

Nanded, Maharashtra

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript, SQL

Core CS: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Web Development: HTML, CSS, React.js, Node.js, Express.js, MERN Stack

Databases: MySQL, MongoDB

Machine Learning: NumPy, Pandas, Scikit-learn, Data Cleaning, Data Preprocessing

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Thunder Client

PROJECTS

CPU Scheduling Simulator | *React.js, Node.js, Express.js, JavaScript, CSS*

- Built a simulator supporting FCFS, SJF, SRTF, Priority, and Round Robin scheduling algorithms.
- Implemented live execution with dynamic Gantt chart and performance metrics comparison.
- **GitHub:** <https://github.com/ghate-akanksha/CPU-Scheduling-simulator>
- **Live Demo:** <https://cpu-scheduling-visualizer-iota.vercel.app/>

AI-Based Smart College Management System | *MongoDB, Express.js, React.js, Node.js, Machine Learning*

- Developed a full-stack system with Admin, Faculty, and Student dashboards using role-based access control.
- Implemented attendance tracking, notice management, student modules, and CRUD operations.
- Integrated a machine learning module for student performance prediction and recommendations.
- **GitHub:** <https://github.com/ghate-akanksha/smart-campus-ai>

Mind Wellness Platform | *MongoDB, Express.js, React.js, Node.js*

- Developed a secure platform with authentication, appointment booking, and wellness awareness modules.
- Implemented self-assessment tests, blogs, and responsive user interfaces.
- Built REST APIs and scalable backend services using the MERN stack.
- **GitHub:** https://github.com/ghate-akanksha/Mern_project-Mind_Wellness/tree/master

ACHIEVEMENTS

Solved 350+ DSA problems across LeetCode and GeeksforGeeks.

Following Striver's A2Z DSA Sheet and NeetCode Roadmap to strengthen problem-solving skills.

Participated in LeetCode Weekly Contests, HackNova Hackathon, and coding competitions.
